Introduction to E-Governance:

Implementing e-governance in a specific area involves using technology and digital solutions to enhance the efficiency, transparency, and accessibility of government services. The key steps to implement e-governance in an area of operation are:

- 1. Assessment and Planning:** Conduct a comprehensive review of current governance processes to identify areas for technological improvement. Develop a detailed plan outlining the objectives, goals, and timelines for e-governance implementation.
- 2. Infrastructure and Connectivity:** Ensure the availability of essential technological infrastructure, including reliable internet connectivity, hardware (computers, servers), and software solutions necessary for e-governance services.
- 3. Digital Services:** Identify services that can be digitized and offered online to citizens and businesses, such as online applications for permits and licenses, payment systems, digital certificates, and e-filing of taxes.
- 4. Secure Data Management:** Implement strong data security and privacy measures to protect sensitive information and ensure compliance with data protection regulations.
- 5. Citizen Portal:** Develop a user-friendly portal where individuals can access various government services, submit applications, track progress, and provide feedback.
- 6. Mobile Apps:** Create mobile applications to provide citizens with access to government services on their smartphones, enhancing accessibility and convenience.
- 7. Training and Capacity Building:** Train government staff to effectively use and manage e-governance systems. Conduct workshops to help citizens understand and utilize digital services.
- 8. Integration of Government Departments:** Integrate various government departments and agencies to facilitate data sharing and streamline processes, reducing redundant data entry and speeding up decision-making.
- 9. Open Data and Transparency:** Encourage the release of non-sensitive government data as open data to promote transparency and enable citizens, businesses, and researchers to utilize the data for various purposes.

10. Feedback Mechanism: Create a system for citizens to give feedback on e-governance services, allowing for continuous improvement and enhancement of digital offerings.

11. Digital Security Measures: Establish cyber security protocols to protect against potential cyber threats and ensure the integrity of e-governance systems.

12. Public Awareness Campaigns: Initiate public awareness campaigns to educate citizens about the benefits of e-governance, how to use digital services, and address any concerns they might have.

STUDENT DETAILS ON PORTAL

Once a college is allotted to a student by the University of Rajasthan, the next steps typically involve several important actions to confirm the admission and complete the necessary formalities.

Online Admission Process: The college has implemented an online admission process, which makes it easier for students to apply for courses and pay fees online. This has not only reduced the administrative workload but also made the admission process faster and more transparent <https://sanskriticollege.org>

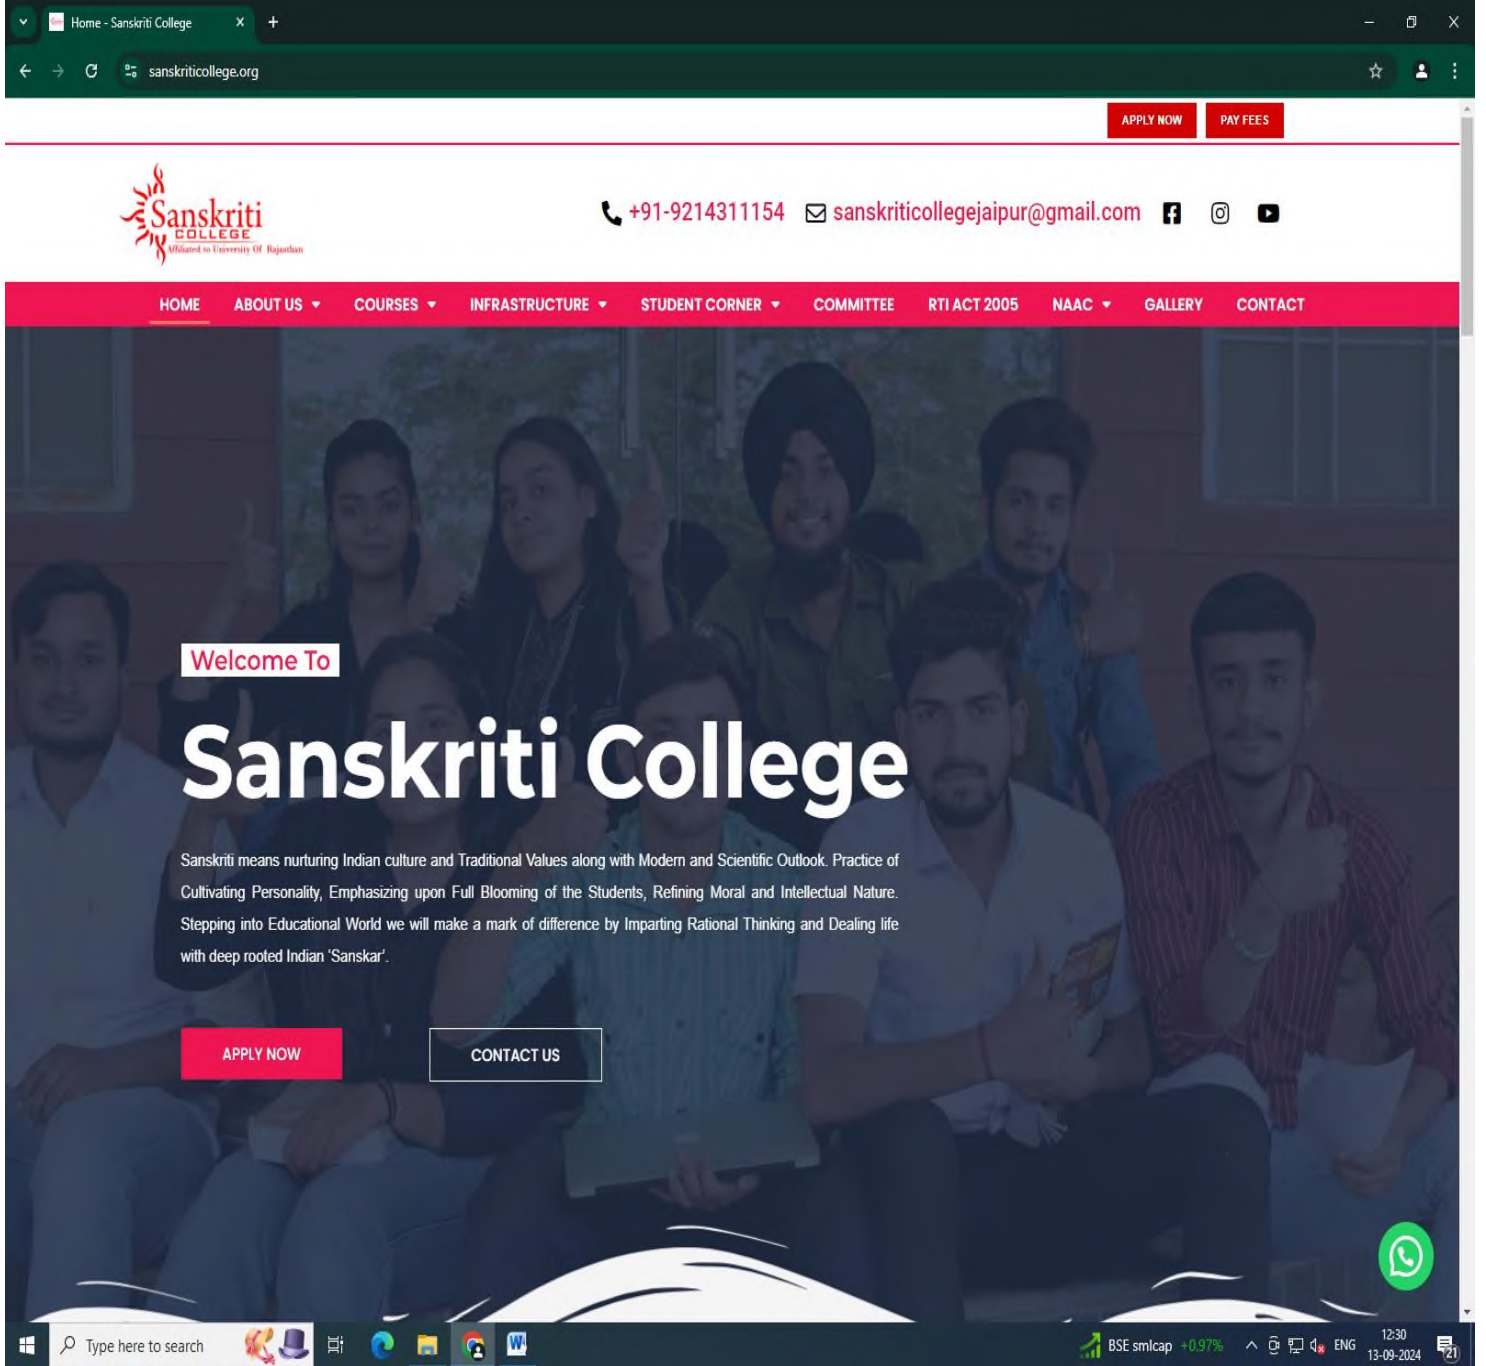

The screenshot shows the homepage of the Sanskriti College website. The browser address bar displays "sanskriticollege.org". The website features a red navigation bar with the following menu items: HOME, ABOUT US, COURSES, INFRASTRUCTURE, STUDENT CORNER, COMMITTEE, RTI ACT 2005, NAAC, GALLERY, and CONTACT. The main content area has a dark blue background with a group photo of students. A white box contains the text "Welcome To Sanskriti College" and a paragraph describing the college's mission: "Sanskriti means nurturing Indian culture and Traditional Values along with Modern and Scientific Outlook. Practice of Cultivating Personality, Emphasizing upon Full Blooming of the Students, Refining Moral and Intellectual Nature. Stepping into Educational World we will make a mark of difference by Imparting Rational Thinking and Dealing life with deep rooted Indian 'Sanskar'." Below this text are two buttons: "APPLY NOW" (red) and "CONTACT US" (white). The footer includes the college's name, "PRINCIPAL" with a signature, and a WhatsApp icon. The Windows taskbar at the bottom shows the time as 12:30 on 13-09-2024.

5. Online Grievance Redressal System: Sanskriti college has implemented an online grievance redressal system, which allows students to lodge complaints and grievances online. This has made the process of addressing grievances faster and more efficient. The implementation of e-governance in the college has resulted in significant improvements in administrative processes, transparency, and accountability. It has also provided better services to students and faculty, making the educational experience more convenient and accessible. Under the guidance of RajasthanUniversity, the College is ready to automatemost of its internal processes grievance.acs@gmail.com.

Grievance-Handling Mechanism

The following mechanisms are in place for timely action towards grievance-handling

Tutor-Guardian System: In many institutions, this feature is in place for the benefit and guidance of students. Regular meetings occur between mentors and mentees, providing students with the opportunity to freely discuss any personal or academic challenges they may be experiencing.

Counseling Cell: This cell is operational to offer counseling and guidance to students for their overall development, including providing appropriate interventions to address any grievances at an early stage.

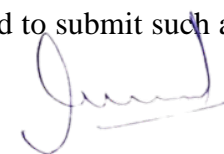

Complaint Box: A designated complaint box is located outside the principal's office for students to conveniently access and submits filled grievance forms.

Open Door Policy: All students are encouraged to personally contact the Principal or the committee convener during college working hours as part of the open door policy. Besides the above mentioned, students may also get in touch with the Nodal Officer -appointed for the same - by using the following contact details:

Email: grievance.acs@gmail.com.

Syllabus and/or with mistakes therein. Students are required to submit such a grievance to the

ICT can offer tremendous opportunities for capturing, storing, disseminating and communicating a wide variety of information. Rapid expansion of knowledge and availability of variety of ICT has made knowledge, inclusion and integration of ICT in teaching and learning inevitable.

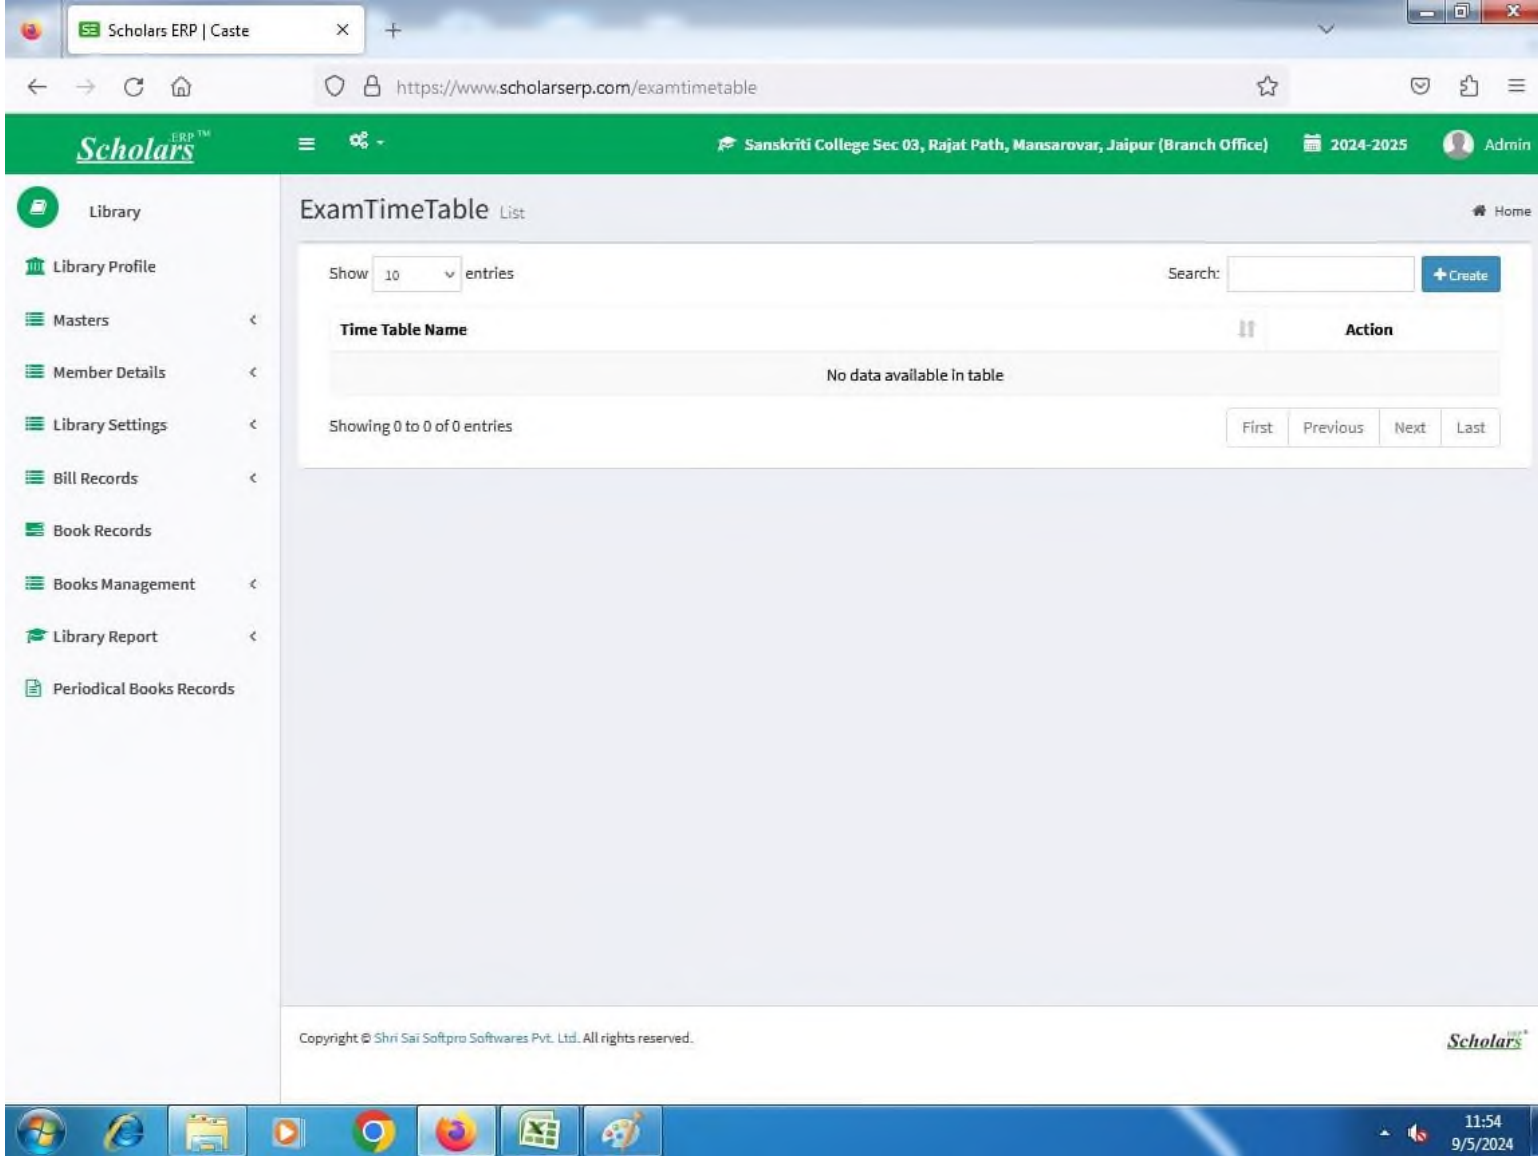

A learning management system (LMS) is a software application or Web-based technology used to plan, implement, and assess a specific learning process. Typically, a learning management system provides an instructor with a way to create and deliver content, monitor student participation, and assess student performance. Our college along with the traditional Chalk and Talk method of Teaching, also utilizes paperless free online Learning Management Systems.

Google Classroom

With Google Classroom, faculty can create classes, distribute assignments, send feedback, and see everything in one place. Teachers and students can work anywhere, anytime, and on any device. Educators can provide instant feedback and track a student's progress to improve performance Instant Paperless & Easy.

Wi-Fi campus for Teaching, Non-Teaching staff and Students

The campus of Sanskriti college is fully equipped as a Wireless Fidelity (WiFi) zone. During college hours, students, teachers, and non-teaching staff members enjoy complimentary and unrestricted access to internet services. The high-speed network spanning across the campus ensures seamless connectivity to the internet, boasting a substantial bandwidth of 300 Mbps. This provision facilitates independent, improved, and more efficient work performance among the campus community.

Moreover, seminar halls, conference rooms, and common areas within the campus are Wi-Fi enabled, featuring centralized authentication to ensure secure network access through desktops, laptops, and other Wi-Fi-enabled devices. This comprehensive Wi-Fi infrastructure enhances collaboration and facilitates academic and administrative activities throughout the institution.
