

Department of Science	
Activity Report	
Name of Activity	Guest Lecture By Eminent Educationist for B.Sc Students
Title	“Bioinformatics and Computer Application”
Date	20/02/2024
Venue	Audio-Visual Room, Sanskriti College
Organized by	Department of Science
Faculty Coordinator	Dr. Deepika Sharma
Resource Person	Dr. Prashant Singh
Enrolled Students	40
Event Summary	The life sciences have undergone a revolution because to bioinformatics and computer applications, which have made it possible for scientists to analyze enormous volumes of biological data and derive insightful conclusions. The use of these technologies in the biological sciences has been substantial and revolutionary in the past tense. The field of genomics has benefited greatly from the use of bioinformatics and computer technologies. These methods have been used by researchers to sequence whole genomes, find mutations that cause diseases, and create patient-specific medicines.

Activity Report	
Name of Activity	Guest Lecture for Students of B . A P s y c h o l o g y
Title	Guest Lecture for Students of P s y c h o l o g y
Date	07/07/2023
Venue	Sanskriti College
Organized by	Department of Psychology
Faculty Coordinator	Dr. Farah Khan
Resource Person	Prof S. L. Sharma
Enrolled Student	30
Event Summary	We gained important insights into the topic of Psychology from the fascinating and educational Guest Lecture for B.A. Psychology students. The guest speaker—a well-known sociologist with substantial expertise in the field—opened the presentation with an introduction. He talked about the several subfields of Psychology and how they link to the larger study of society and social systems. Examples of these subfields include Mental health, social stigma, and Criminal Psychology. He talked on social change and how psychologists might help build a society that is just and equal.

Activity Report	
Name of Activity	A Workshop on 'Happiness & Well Being'
Title	'Happiness & Well Being'
Date	27/04/2023
Venue	Sanskriti College, Jaipur
Organized by	IQAC & Department of Psychology
Faculty Coordinator	Dr. Farah Khan
Resource Person	Prof. Madhu Jain, Prof. Manika Mohan Saxena & Dr. Mukta Singhvi
Enrolled Student	30
Event Summary	The "Happiness and Well-Being" lecture was a very interesting and captivating program that emphasized the significance of mental and emotional well-being in leading a happy and full life. Experts in the fields of psychology and mental health led a series of lectures and interactive discussions during the seminar. The seminars addressed a wide range of subjects linked to happiness and wellbeing, such as mindfulness, stress reduction, and positive psychology. They also emphasized the different ways in which people can improve their mental and emotional well-being in order to lead happier and more satisfying lives. Through the interactive seminars, participants were able to experience different happiness and well-being approaches firsthand and learn how to effectively apply them into their own lives.

IQAC & Department of Psychology	
Activity Report	
Name of Activity	Guest Lecture by Professor Vishawa Choudhary (University of Rajasthan) on Mental Health
Title	Mental Health
Date	2/9/2022
Venue	Seminar Hall, Sanskriti College
Organized by	IQAC & Department of Psychology
Faculty Coordinator	Dr.Farah Khan
Resource Person	Dr. Vishawa Choudhary
Enrolled Students	40
Event Summary	At the college, there was a guest lecture on mental health. The impact of mental health on our thoughts, emotions, and behaviors was highlighted as a crucial component of total wellbeing. It speaks to our social, psychological, and emotional health and influences our ability to manage stress, interact with others, and make decisions. Although having a healthy mental state is necessary for living a happy and productive life, mental health problems are sadly common in our culture. It is anticipated that one in four individuals globally may encounter mental health issues at some point in their lifetime. Genetics, environment, experiences in life, and social and cultural influences are just a few of the variables that might impact mental health. Anxiety, depression, and more serious mental health conditions are all possible.

IQAC & Department of Computer Science	
Activity Report	
Name of Activity	Guest Lecture by Eminent Educationist for BCA Students
Title	IoT (Internet of Things)
Date	2/9/2022
Venue	Seminar Hall, Sanskriti College
Organized by	IQAC & Department of Computer Science
Faculty Coordinator	Ms. Anju Sharma
Resource Person	Mr. Rohit Barotia
Enrolled Students	35
Event Summary	<p>A guest lecture by Eminent Educationist was conducted in St. Wilfred's college. It was discussed that The Internet of Things (IoT) refers to the network of interconnected physical devices, vehicles, buildings, and other objects embedded with sensors, software, and connectivity, enabling them to collect and exchange data. The goal of IoT is to enable seamless communication between these devices, allowing them to work together to enhance the overall efficiency and effectiveness of a system.</p> <p>IoT is revolutionizing various industries, including healthcare, transportation, agriculture, and manufacturing. For example, in healthcare, IoT devices such as wearables and sensors can monitor a patient's vital signs remotely, enabling doctors to provide real-time diagnoses and treatment recommendations. In transportation, IoT-enabled sensors and devices can help improve road safety and reduce traffic congestion. In agriculture, IoT sensors can monitor soil conditions and weather patterns, enabling farmers to optimize crop yields and minimize waste</p>

Department of Chemistry	
Activity Report	
Name of Activity	Guest Lecture
Title	Guest Lecture on 'Uranium Element Information, Properties and Use' by Eminent Scientist
Date	24/3/2021
Venue	Google Meet Platform
Organized by	Department of Chemistry
Faculty Coordinator	Dr. Priyamwada Sharma, Mr. Kanha Ram Saini
Resource Person	Dr. D.P.S. Rathore
Enrolled Student	45
Event Summary	One of the most beneficial educational experiences was the guest presentation by a renowned scientist on "Uranium Element: Information, Properties, and Use." Every aspect of uranium, including its characteristics, distribution, techniques of extraction, and important uses in both nuclear and non-nuclear industries, was covered in detail for the participants. Better knowledge of the element's scientific importance and its effects on numerous industries was promoted by the talk. Participants were able to participate with the expert, ask questions, and have discussions that helped them learn the material more deeply since the presentation was interactive. As a whole, the guest lecture sparked interest and encouraged more research on the topic while also increasing participants' understanding of uranium and its uses.

Department of Science	
Activity Report	
Name of Activity	Guest Lecture
Title	Bee Biodiversity and their preservation
Date	22/01/2021
Venue	Google Meet Platform
Organized by	Department of Science (Zoology)
Faculty Coordinator	Dr. Deepika Sharma
Resource Person	Dr. Shipra Choudhary
Enrolled Students	45
Event Summary	<p>Because they are vital to ecosystem services as pollinators, bees are significant from an ecological and financial standpoint. With the help of the International Pollinator Initiative and the Convention on Biological Diversity, a worldwide policy framework for pollinators has been formed in response to the documented global drop in bee populations. In addition to local and federal conservation laws, there are also regional Pollinator Initiatives that have the potential to affect bee conservation. Another tool for integrating bees into regional, national, or subnational conservation policy and practice is the development of bee Regional Red Lists, which are created under the direction of the International Union for Conservation of Nature. These lists also accompany conservation priority lists.</p>

Activity Report	
Name of Activity	One day workshop on “ 3D Clay Modeling”
Title	One day workshop on “ 3D Clay Modeling”
Date	09/12/2023
Venue	Sanskriti College, Jaipur
Organized by	Department of Visual Arts
Faculty Coordinator	Mr. Jaideep Sharma
Resource Person	Mr. Rohit Atri
Enrolled Student	30
Event Summary	<p>Clay modeling involves shaping and creating three-dimensional forms using clay. There are various types of clay suitable for modeling, including ceramic clay, polymer clay, and air dry clay. A wide range of tools and materials are used in clay modeling, such as sculpting tools, blending tools, and pottery tools. Techniques in clay sculpting include hand building, wheel throwing, coiling, and pinching. Texturing techniques can be used to add depth and visual interest to clay sculptures.</p> <p>One Day Workshop was held on 3D Clay Modeling by Visual Arts Department at Sanskriti college.</p>

Title	Human Rights
Date	10/12/2021
Venue	Seminar Hall, Sanskriti College
Organized by	Department of Political Science
Faculty Coordinator	Dr. Chanchal Sharma
Resource Person	Mr. Dinesh Bhati
Enrolled Student	45
Event Summary	A lecture on Human Rights was organized by our college in the past to create awareness about the importance of human rights and promote respect for them. The lecture was organized by the college's Arts Department and was open to all students and faculty members. The lecture was delivered by an expert in the field of human rights, who spoke about the various human rights issues that are prevalent in the world today. The expert discussed topics such as discrimination, violence, and exploitation, and emphasized the need to protect the rights of all individuals.

Activity Report

Name of Activity	One day workshop on "Print Making "
Title	One day workshop on "Print Making "
Date	09/12/2019
Venue	Sanskriti College, Jaipur
Organized by	Department of Visual Arts
Faculty Coordinator	Mr. Amarjeet
Resource Person	Mr. Rohit Atri
Enrolled Student	30
Event Summary	This workshop focussed on helping students transform their interest in drawing and painting into the art of Monotype and Monoprint. Monoprinting is considered the most painterly of all printmaking techniques. Techniques covered will include, but not be limited to, dark and light field monotypes (with examples from Degas's prints), trace monotypes (with examples from Gauguin and Paul Klee), chine colle, glazing, the printing of actual objects and frottage. How these prints can be further developed into collage and mixed media pieces will also be explored. Appropriate for beginners through advanced level.
