Pre-Placement activities are crucial components of the college experience that prepare students for successful entry into the job market. These activities are designed to equip students with the skills, knowledge, and confidence they need to secure meaningful employment upon graduation. Here's an overview of pre-placement activities in college:

1. **Resume Workshops:** These workshops focus on crafting effective resumes that highlight students' skills, experiences, and accomplishments. Students learn how to tailor their resumes for specific job roles and industries, increasing their chances of catching the attention of potential employers.

2. **Mock Interviews:** Mock interview sessions simulate real job interviews, helping students practice their communication skills, refine their responses to common interview questions, and receive constructive feedback from career advisors or industry professionals.

3. **Soft Skills Training:** Soft skills, such as communication, teamwork, problem-solving, and leadership, are essential for success in any job. Pre-placement activities often include workshops or seminars that help students develop and enhance these skills.

4. **Industry Awareness Seminars:** These seminars provide insights into various industries, including trends, expectations, and career opportunities. They help students make informed decisions about their career paths and align their skills with industry demands.

5. **Networking Events:** Colleges organize networking sessions where students can interact with alumni, professionals, and recruiters. These events help students expand their professional networks, gain valuable contacts, and learn about potential job openings.

6. **Company Presentations:** Representatives from different companies may visit the campus to introduce students to their organizations. These presentations provide information about company culture, job roles, and application processes.

7. **Aptitude and Technical Training:** Depending on their field of study, students might undergo training in aptitude tests, technical skills, programming languages, and software tools relevant to their desired job roles.

8. **Personality Development Workshops:** These workshops focus on improving students' overall personalities, boosting self-confidence, enhancing communication skills, and developing a professional demeanor.

9. **Career Counseling:** Career counselors guide students in understanding their strengths, interests, and career aspirations. They help students make informed decisions about their career paths and set achievable goals.

10. **Job Fair Preparations:** Colleges often organize job fairs where students can interact with multiple employers in one location. Pre-placement activities include preparing students for

these events, guiding them on how to approach employers, and helping them present themselves effectively.

11. **Portfolio Development:** Students in creative fields, such as design or art, might work on creating portfolios showcasing their best work. These portfolios are essential for demonstrating their skills to potential employers.

12. **Industry Visits and Internships:** Some colleges facilitate visits to industries or arrange internships, giving students firsthand experience of real workplace environments and industry operations.

13. **Online Presence Building:** In the digital age, having a strong online presence is important. Pre-placement activities might include guidance on building a professional LinkedIn profile and using social media effectively.

Pre-placement activities play a vital role in bridging the gap between academia and the professional world. They empower students with the skills and resources needed to navigate the competitive job market, secure internships or jobs, and embark on successful careers.

Our college also organized various Pre Placement Activities in previous years. List of such activities is as follow:

S. No.	Activity	Resource Person	Session
1.	Career Counseling Session for XII Students	Ms. Ranjula Gupta	2019-20

|	
Name of Activity	Workshop for BCA Students
Title	Cloud Computing
Date	13/12/2021
Venue	Sanskriti College ,Jaipur
Organized by	Department of Computer Science
Faculty Coordinator	Mr. Shekhar Jha
Resource Person	Mr. Amit Thakur
Enrolled Student	45
Event Summary	Cloud computing was a groundbreaking technology that revolutionized the way businesses and individuals store, process, and manage data. It allowed users to access computing resources, such as servers, storage, and applications, over the internet, rather than relying on physical hardware located on-site. Initially, cloud computing was seen as a niche technology, accessible only to large corporations and tech-savvy users. However, as the technology evolved and became more widely adopted, cloud computing became more accessible and affordable to businesses and individuals of all sizes. Cloud computing offered a range of benefits, including increased flexibility, scalability, and cost-efficiency.

Activity Report

Name of Activity	One Day Resume Building Session
Title	Building Your Professional Profile: A One-Day Resume Building Session
Date	27/08/2023
Venue	Sanskriti College
Organized by	TPO & Student Development Cell
Faculty Coordinator	Mr. Ashish Mathur
Resource Person	Dr. Aditi Joshi
Enrolled Student	60
Event Summary	On August 27, 2023, Sanskriti College organized a one-day resume building session for students. The aim of the session was to provide guidance and tips to the students on how to build an effective resume that would help them stand out from the crowd in job applications. Dr. Aditi Joshi covered various topics related to resume building such as the importance of tailoring resumes to specific job requirements, choosing appropriate formats and layouts, highlighting key skills and achievements, and using action verbs and buzzwords to make a strong impact. She also emphasized the importance of proofreading and editing to avoid mistakes and errors that could negatively affect the chances of getting hired. The session was interactive, with students participating in group activities and receiving personalized feedback on their resumes. The event was well- organized and received positive feedback from the students, who found the information and advice provided to be extremely helpful in building their resumes for future job applications.
